## NOTES/COMMENTS:

Examiner Bashore,

Attached are existing claims 1 and 34, and a proposed version of claim 43, with amendments. During our interview, we would like to discuss all three claims. We will call you on Tuesday at 4:30 pm Eastern time (1:30 pm Pacific time).

Daniel Vaughan

34. (Previously Presented) A value exchange system for exchanging  
2 value between multiple users, comprising:  
a database configured to store information concerning registered users of the  
4 value exchange system and details of transactions conducted by the registered users;  
a synchronization server configured to receive a first value exchange transaction  
6 from a client device operated by a first party, wherein said first value exchange  
transaction involves a second party identified by the first party with an electronic mail  
8 address, but terms of said first value exchange transaction are not negotiable by the  
second party; and  
10 a communication server configured to:  
notify the second party of said first value exchange transaction using said  
12 electronic mail address; and  
receive a connection from the second party and register the second party if  
14 not already registered.
